

VIRGINIE SCHROEDER

Virginie Schroeder began her career as an artist in 2009 after moving to Canada. At the beginning of Schroeder's career her style leaned toward pop art. She then developed her own personal style which draws inspiration from abstraction, for which she is now known.

Schroeder's work begins with a realistic sketch which is then deconstructed to her signature striations. Working meticulously, she then applies layer upon layer of acrylic and oil paint with a syringe. She then reworks each line with a knife to create precise lines. Depth is created by the variation of color and finish.

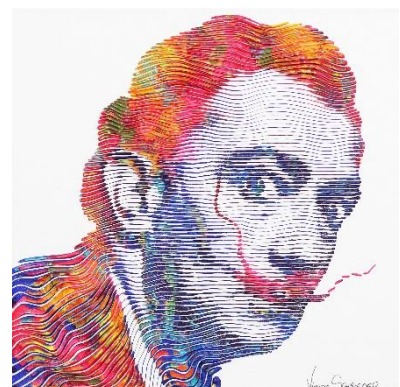

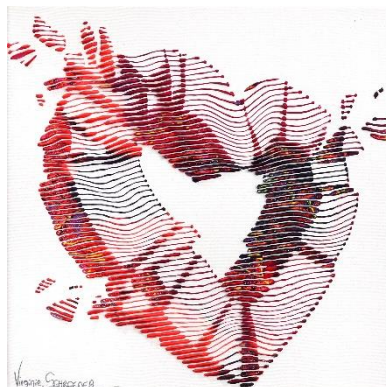

When a face, an animal, a landscape, or any other subject is evacuated of its linear structure, it acquires a completely different form, a different identity and dimension, a new prestige. One does not recognize it at first sight; it emerges as the very process of observation. It is here that the magic occurs, as the viewer consciously discovers a work of abstract character in vivid color which plays upon the tension between the

figurative and the imaginary.

An expert in both color and composition, Virginie Schroeder creates paintings that are both abstract and photorealistic, which also being surprisingly playful. Her work has been exhibited international in Canada, France, and the United States.
